UMass Amherst Initiative for Personalized Health Monitoring and Biometric Sensors Utilizes CHM Process Platforms

- The Commonwealth of Massachusetts has earmarked $90,000,000 in capital funds for life sciences research in Western Massachusetts
- The University of Massachusetts Amherst is proposing an integrated $46,000,000 Center for Personal Health Monitoring (CPHM)

The CPHM will include the $25,000,000 Center for Advanced Roll-to-Roll Manufacturing for the Life and Nano Sciences, an open access facility that will deploy leading edge technology and pilot tools for sensor systems, packaging and associated flexible electronics platforms and enhance University – Industry partnerships. This Center is built upon and has been enabled by advances in the CHM.
